

2009 Annual Giving Report

The Parlando School for the Arts (Parlando) would like to humbly recognize the following individuals and organizations for their support throughout 2009. Through the support and dedication of those people and organizations listed below our educational programs have become widely recognized as some of the best in the state while our outreach programs now affect thousands of individuals and families on an annual basis.

Parlando is an Italian word that means “to speak in a musical way.” At Parlando School for the Arts, we are committed to unifying our community through the universal language of music and the arts. We invite you to help us spread the universal language of music and the arts and “speak” to more members of our community through charitable giving.
